

# Learning Intention

I am learning to find the main, or most important idea.

# Success Criteria

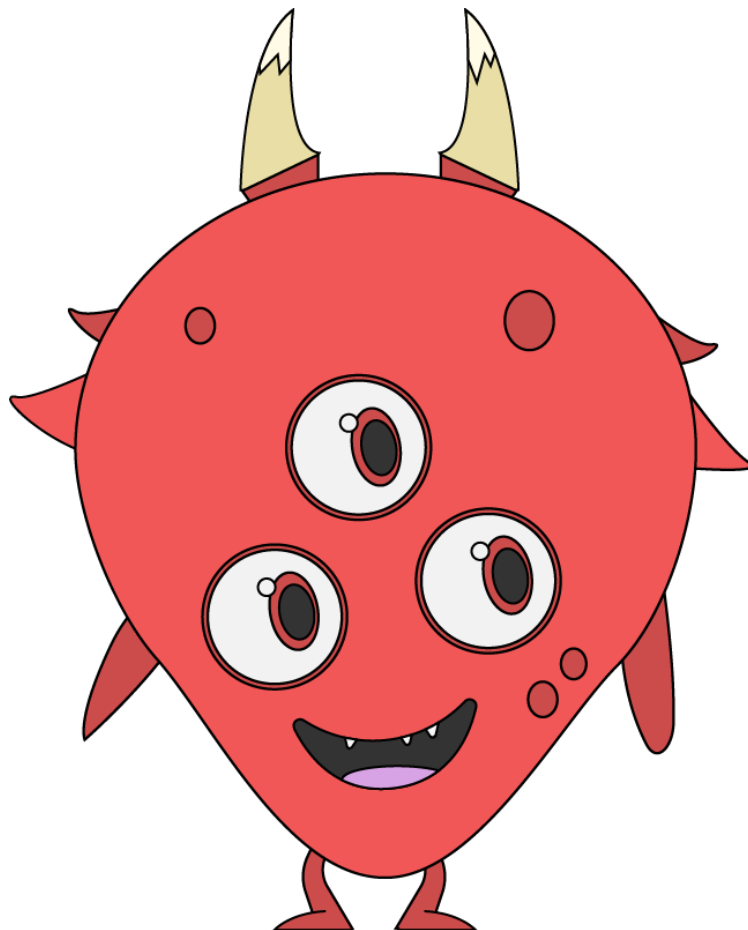

I will look at the pictures and talk about:

- what I can see
- how different parts of the picture go together
- what the big idea might be

# Finding the Main Idea

The main idea is what something is mostly about. To find the main idea think,  
“What is the big idea?”  
“What is this mostly about?”

# Learning Checklist

Check these off as you go.

Did I:	✓
notice all the parts or details in pictures?	
make connections between the parts of the picture?	
share what the main idea might be?	
listen to others?
