

# Learning Intention

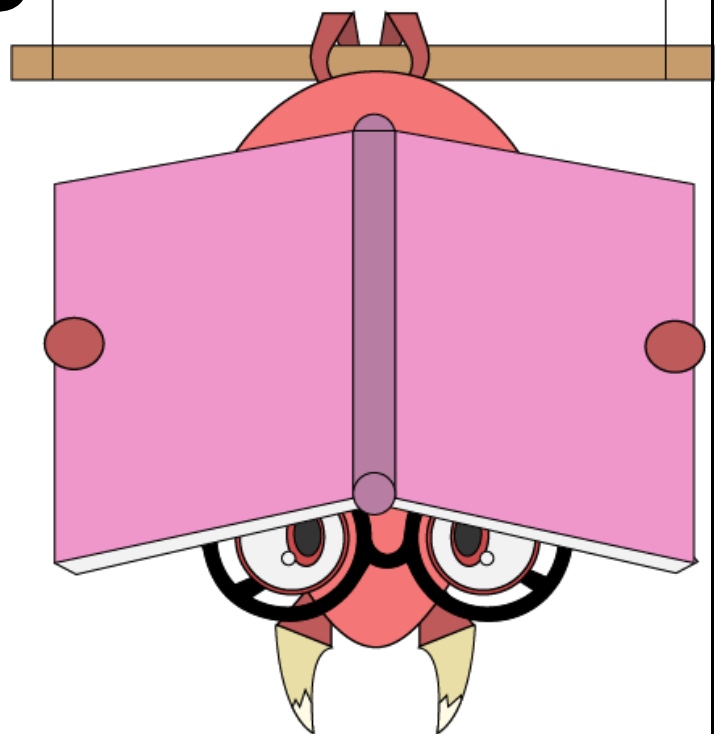

I am learning to find the main, or most important idea when I look at people and what they are doing.

# Success Criteria

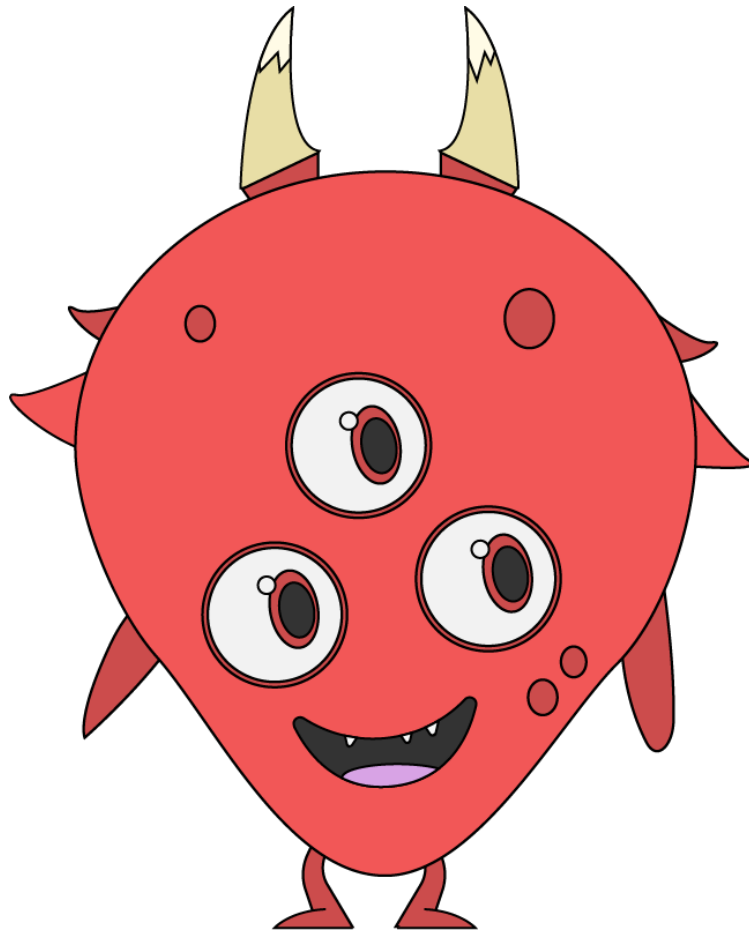

I will talk about:

- what I can see
- who I can see
- what might be happening

# Finding the Main Idea

The main idea is what something is mostly about. To find the main idea think, “What is the big idea?” “What is this mostly about?”

# Learning Checklist

Check these off as you go.

Did I:	✓
notice all the parts or details in pictures?	
figure out what was happening?	
work out how the people were connected?	
listen to the ideas of others?
