

Learning Intention

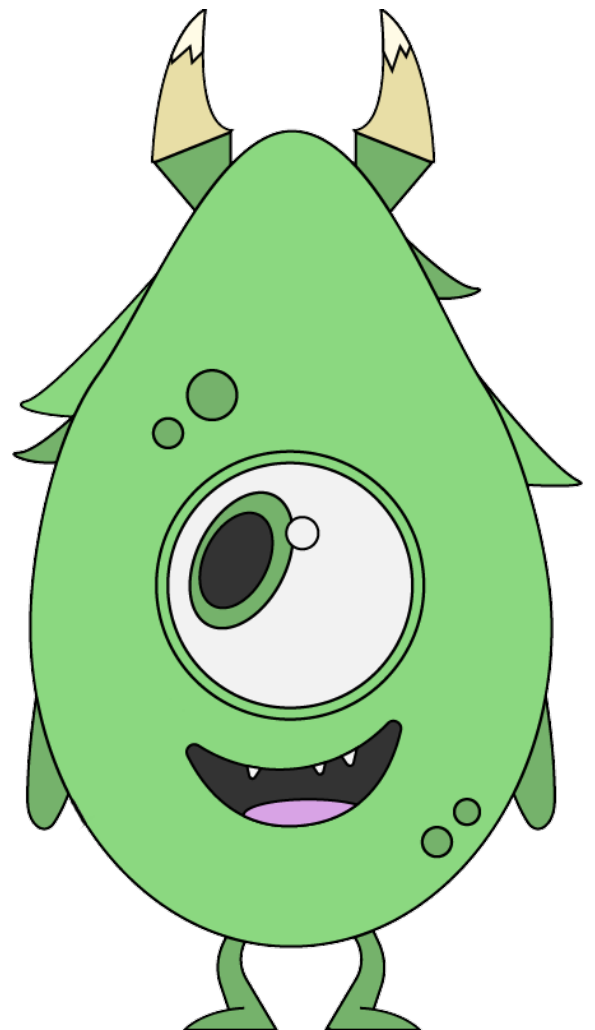

I am learning to tell
what happens at the
beginning, middle and
end of a story.

first
then
after that

Success Criteria

I will talk about who is in the story. I will talk about what happened at the start, what happened in the middle and what happened at the end.

Sequencing

Sequencing means to put ideas in order. When you sequence a story you put events in the order they happened in the story. When you sequence pictures you put them in the order you think makes sense.

Helpful words:

**at the start,
in the beginning,
first, next, then,
after that, later,
finally, in the end**

Learning Checklist

Check these off as you go.

Did I:	✓
name the characters in the story?	
remember how the story began?	
remember how the story ended?	
remember what happened in the middle?
