

Learning Intention

I am learning about
the index in a
nonfiction book.

Success Criteria

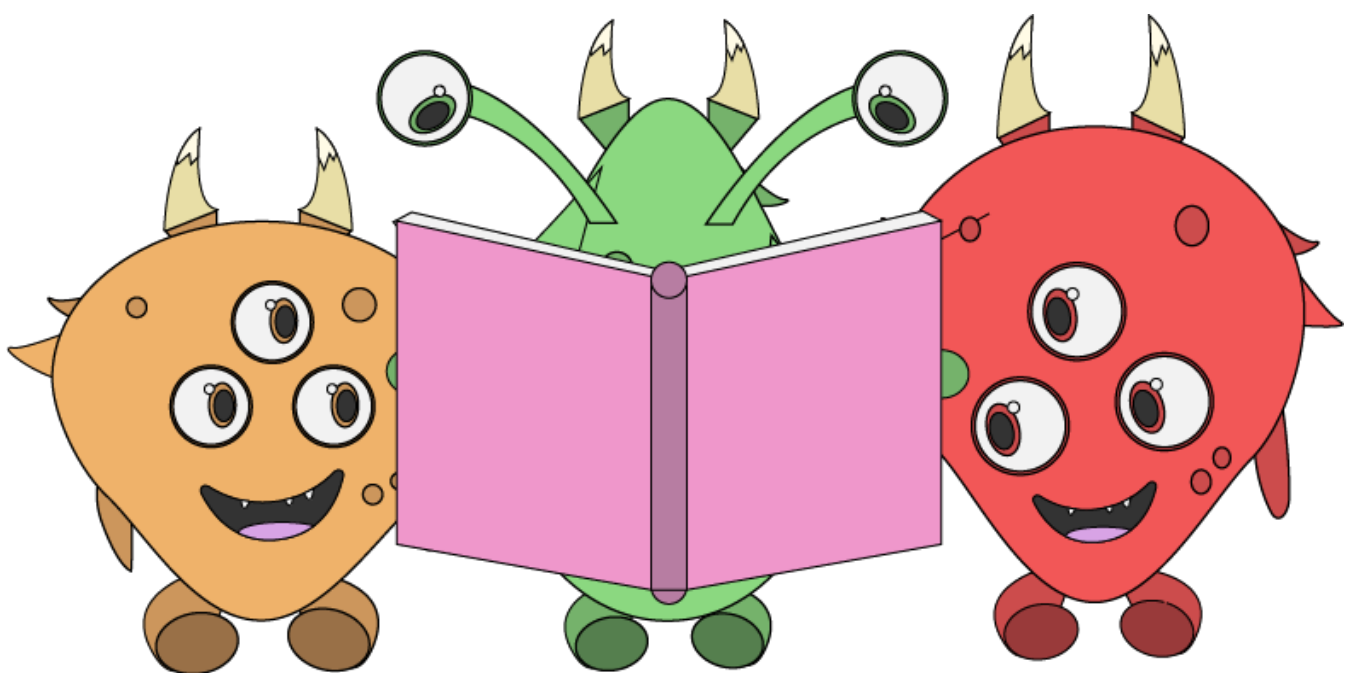

I will look at the index in a book. I will be able to tell others what you see on the index page. I will find something in the index.

Fiction and Nonfiction

Fiction means made up or invented. The ideas are not true, but come from a person's imagination.

Nonfiction means true or factual. The ideas are not made up. The information is correct or accurate.

Index

An index is a special list in a book which tells readers which pages they can visit to find a word.

The index is found right at the back of a book. The quickest way to find it is to close the book and open it up from the back cover.
