Learning Intention

I am learning to infer, or figure out, how people might be feeling.

Success Criteria

I will look carefully at people's faces and notice how their bodies are positioned to work out how I think they might feel.

<u>Inferring</u>

Inferring means to figure something out without being told. I can infer how someone feels by using clues on faces, bodies and in voices and thinking about what I know.

Learning Checklist

Check these off as you go.

Chat about these: What might someone look like if they were sad? When someone is happy what do their eyes, cheeks and mouth look like?
