

Learning Intention

I am learning how to interpret or figure out whether things in photos are still or stationary, or whether they are moving.

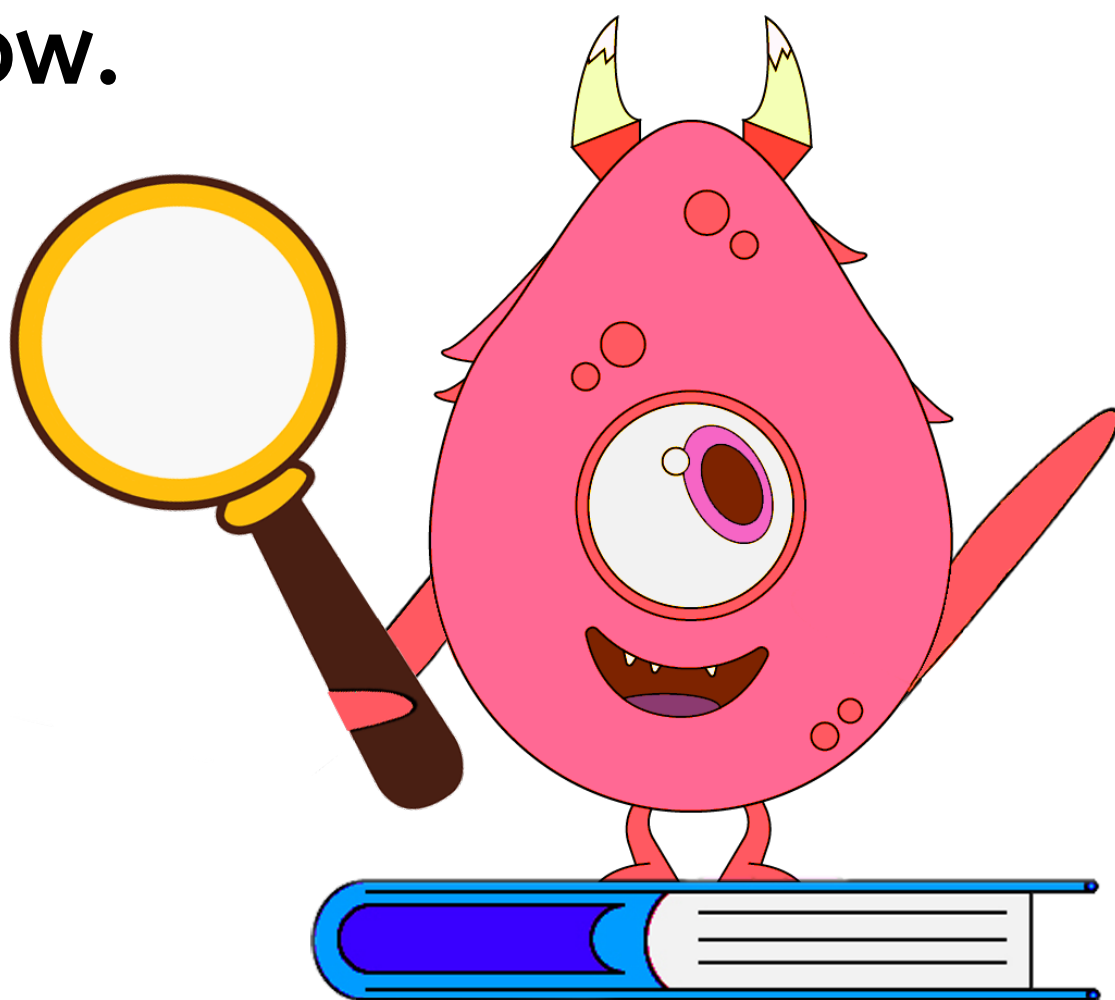

Success Criteria

I will use my own knowledge and information in the photos to work out whether something is moving or still. I will look for details which show which direction something might be moving.

Inferring

Inferring means to figure something out without being told. Great readers infer by looking for clues in the words and pictures and connecting these with what they already know.

Learning Checklist

Check these off as you go.

Discuss:	✓
Which clues helped us to work out something was moving or still?	
Which clues helped us to work out which direction it was moving?
