

Learning Intention

I am learning how to understand some common sayings about animals. A saying is a group of words which has a special meaning when used together.

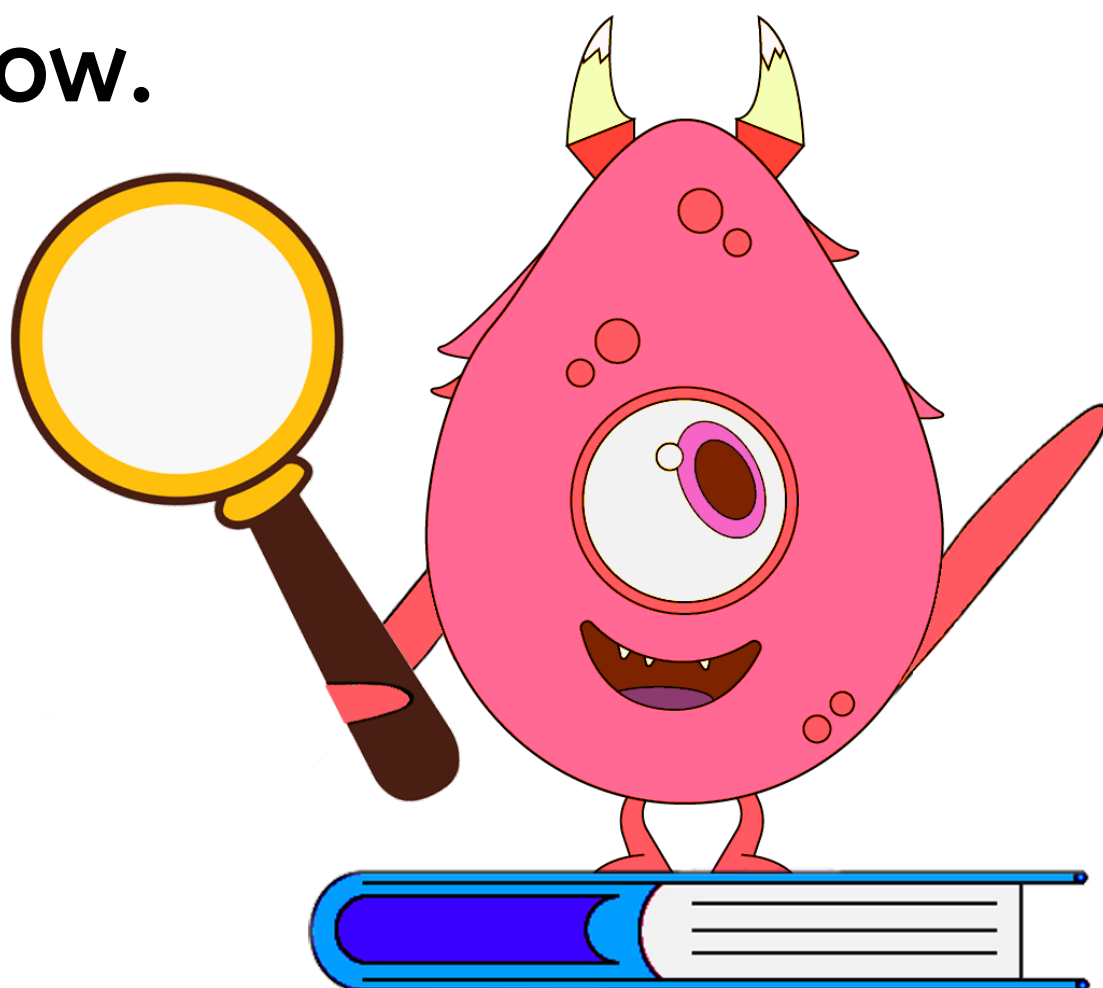

Success Criteria

I will learn some sayings about animals. I will use them in sentences to show I understand what they mean and share examples of when they could be used.

Inferring

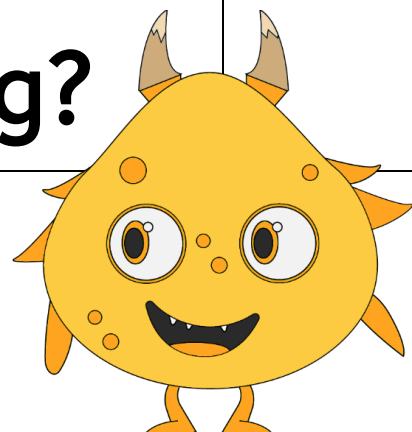

Inferring means to figure something out without being told. Great readers infer by looking for clues in the words and pictures and connecting these with what they already know.
